

# BRAIN CAMP

Hands-On Explorations in Neuroscience

AS FEATURED IN  
**Forbes**

**Two-Day STEM Interactive Neuroscience Camp**  
**July 8-9, Haberfield**  
**July 11-12, West Pymble**

**Have fun discovering how the brain and mind work.**

At Brain Camp, kids aged 8-12 years old will have fun learning to conduct research like a real scientists. Brain Camp is designed to cultivate critical thinking, teamwork, and communication skills. Our aim is to help build curious, creative, and confident thinkers who are equipped to tackle the challenges of tomorrow. Brain Camp was developed and is led by two world-leading cognitive neuroscientists with over 30 years of combined neuroscience education experience.
